

COME LEARN ABOUT THE STFX MASTER IN ADULT EDUCATION PROGRAMS!

Are you curious about pedagogical strategies to help you and your community tackle important & complex issues?

Do you value learning in a flexible & supportive cohort model working with others interested in social change?

What some of our alumni have to say!

“Completing the program opened new career pathways that I had not thought possible. If you can work in training and experience, creating a unique co-learning experience, this program is an excellent choice.”
