

## EMPLOYMENT OPPORTUNITY

# X-CHEM OUTREACH INDIGENOUS COMMUNITY COORDINATOR

X-Chem Outreach is currently seeking applications Indigenous undergraduate student to help in the planning and delivery of X-Chem Outreach Science & Coding Programming for our local First Nations youth. The successful candidate should show a passion for children in our Indigenous communities and be committed to supporting their positive growth and development.

As an Indigenous Community Coordinator your job will be to help support the X-Chem program in our work to foster an interest in STEM with Indigenous youth. Specific tasks include:

- work with fellow X-Chem Outreach team members to develop in-person, online, and remote workshop/camp activities that are culturally relevant, educational, and engaging for First Nations youth.
- help organize and schedule workshops/camps with local First Nations communities.
- help deliver workshops and camps.

The position is for 20hrs per week @ \$14.50/hr and is 16 weeks in length tentatively beginning May 3<sup>rd</sup> 2021. To apply please email your cover letter, resume, and unofficial transcript to Jennifer Fraser [jlfraser@stfx.ca](mailto:jlfraser@stfx.ca). A background in science or previous experience with STEM is not required. Previous work with youth is an asset.

X-Chem Outreach respects diversity and welcomes applications from visible minority group members, women, Indigenous persons, persons with disabilities, and members of sexual minority groups.
