

StFX Co-op

See where experience will take you.

Co-operative Education as a work integrated model is the most recognized way for students to graduate with relevant, paid work experience and avoid the no-job-no-experience cycle. Co-operative Education is an academic educational model rather than a job placement strategy. Co-op Education promotes continuous learning through the integration of classroom and applied work-based learning.

PROGRAM BENEFITS

- Gain perspective of how academic theory is applied in a professional work setting.
- Work, live and travel across Canada, the US, or abroad while earning income and credit toward your degree.
- Build a professional resume and portfolio that can help you secure your post graduate employment.
- Get a real perspective of the work place options in your field of study.
- Learn about yourself, who you want to be, and where you want to go.

PROGRAMS WITH A CO-OP OPTION

- Biology
- Computer Science
- Human Nutrition
- Math
- Schwartz School of Business

Our Business Co-op Program is accredited by the Canadian Association for Co-operative Education. Biology, Human Nutrition, Computer Science, and Math programs follow the same program procedures as our accredited co-op programs.

WHAT YOU NEED TO KNOW

- Students are required to obtain 12 months of paid work experience and complete COOP 405 to obtain 3 credits.
- Students have a variety of work term options that integrate co-op into their degree.
- The total cost of the program is \$3300. The co-op fees are \$600 per seminar and \$500 per work term.

IS CO-OP FOR ME?

Please answer the following questions:

1. I want to see how my academics are applied in real work situations. Yes No
2. I want a professional job before I graduate. Yes No
3. I want to discover who I am and what career choices may be a good fit for me. Yes No

If you answered 'yes' to any of the questions, then co-op may be a good match for you!
